REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF OQ GAS NETWORKS SAOG

Introduction

We have reviewed the accompanying condensed interim financial statements of OQ Gas Networks SAOG (the "Company") which comprise the condensed interim statement of financial position as at 30 September 2026, and the related condensed interim statement of profit or loss and comprehensive income for the three months and nine months periods then ended, and condensed interim statements of changes in equity and cash flows for the nine months period then ended and explanatory notes. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 *"Interim Financial Reporting"* (IAS 34). Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other Matter

The figures presented in the condensed interim statement of profit or loss and other comprehensive income for the three months and nine months periods ended 30 September 2025 and the condensed interim statements of changes in equity and cash flows for the nine months period ended 30 September 2025 were not audited or reviewed and is presented for comparison purpose only. Accordingly, we do not express a conclusion, opinion or any other form of assurance on them.

1 CORPORATE INFORMATION

OQ Gas Networks SAOG ("the Company") was incorporated as a closely held joint-stock company under the Commercial Companies Law of Oman on 23 May 2000. On 24 October 2023, the Company was listed on the Muscat Stock Exchange (MSX) following the OQ SAOC's (Parent Company) decision to undertake a secondary sale of up to 49% of its shares through an Initial Public Offering (IPO). Since 2023, the Parent Company, which is wholly owned by the Government of the Sultanate of Oman via the Oman Investment Authority ("OIA" / "Ultimate Parent Company"), retains a 51% ownership stake in the Company.

The Company's operations were initially governed by the Concession Agreement dated 22 August 2000, ratified by Royal Decree 78/2000 on 28 August 2000. From 1 January 2018, a new revenue and tariff mechanism, the Regulatory Asset Base (RAB), was introduced via an amendment to the 22 August 2000 Tariff and Transportation Agreement ("Amended TTA"). On 9 June 2020, the Company signed an Amended Concession Agreement with the Government of the Sultanate of Oman, which was ratified on 28 October 2020 by Royal Decree 122/2020. This Amended Concession Agreement, which supersedes the Amended TTA, maintains the same terms for determining and charging transportation charges, resulting in no change to the accounting treatment.

The Company's objective is to acquire, construct, operate, maintain, repair and augment gas transportation pipelines and perform other activities relating to the gas transportation.

The Company holds 100% ownership of Energy Infrastructure Company LLC ("EIC") (Previously Gas Transmission Company LLC ("GTC")) registered in the Sultanate of Oman which is non-operational and hence not consolidated. The Company plans to use EIC to conduct any non-regulated business in the future.

2 BASIS OF PREPARATION

These condensed interim financial information for the nine months period ended 30 September 2026, have been prepared in accordance with IAS 34 Interim Financial Reporting, applicable provisions of the requirements of the Commercial Companies Law of Oman 2019 and Ministerial Decision 146/2021 issuing Commercial Companies Regulations and the applicable requirements of Financial Services Authority (FSA), and should be read in conjunction with the Company's last annual financial statements as at and for the year ended 31 December 2025 ('last annual financial statements'). They do not include all the information and disclosures required in the complete set of annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") accounting standards as issued by the International Accounting Standards Board ("IASB") ("IFRS Accounting Standards"). However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements. The Company has prepared these condensed interim financial statements on the basis that it will continue to operate as a going concern.

The condensed interim financial statements have been presented in Rial Omani (﷼) which is the functional and presentation currency. The condensed interim financial statements have been rounded off to the nearest Rial Omani ﷼, unless otherwise stated.

3 APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

New and amended standards adopted by the Company

The accounting policies adopted in the preparation of the condensed interim financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026.

The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Below amendment applies for the first time in 2026, but does not have an impact on the condensed interim financial statements of the Company.

- Annual Improvements to IFRS Accounting Standards - Volume 11
- Classification and Measurement of Financial Instruments—Amendments to IFRS 9 and IFRS 7

4 CRITICAL JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In preparing these interim condensed financial statments, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

Measurement of fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

For financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

5 REVENUE

	Notes	For the three months period ended 30 September		For the nine months period ended 30 September	
		2026	2025	**2026**	2025
		Unaudited	Unaudited/ unreviewed	**Unaudited**	Unaudited/ unreviewed
Services transferred over time:					
Construction revenue	13.2	**16,097,551**	28,770,528	**51,536,493**	61,719,159
Allowance for expenditures	22.1	**8,189,545**	7,770,964	**23,899,427**	23,645,211
Allowance for pass-through cost	22.1	**1,132,461**	1,223,596	**3,023,959**	3,539,711
Project management and other services		**-**	58,500	**5,000**	58,500
		25,419,557	37,823,588	**78,464,879**	88,962,581

5.1 Construction revenue is recognized on market-based margin on the construction cost of OMR 47,811,941 (30 September 2025: OMR 57,257,661) equal to the rate of return on assets pre-agreed with the regulator.

5.2 All revenue is generated from customers within the Sultanate of Oman.

6 FINANCE INCOME

10 TAXATION

Income tax expense is recognised at an amount determined by multiplying the profit (loss) before tax for the interim reporting period by management's best estimate of the weighted-average annual income tax rate expected for the full financial year. As such, the effective tax rate in the interim condensed interim financial statements may differ from management's estimate of the effective tax rate for the annual financial statements.

22 RELATED PARTIES

The Company enters into transactions with companies and entities that fall within the definition of a related party as contained in IAS 24 Related Party Disclosures. Related parties comprise the shareholders, directors, key management personnel and business entities that have the ability to control or exercise significant influence over financial and operating decisions of the Company. The Company maintains balances with these related parties which arise in the normal course of business from the commercial transactions at mutually agreed terms. Outstanding balances at year end are unsecured and settlement occurs in cash.

Government of Sultanate of Oman (the Government) indirectly owns the Company. The Company has applied the exemptions in IAS 24 related to transactions with the Government and other entities controlled, jointly controlled or significantly influenced by the Government. In this respect, the Company has disclosed certain information, to meet the disclosure requirements of IAS 24, in this note.

Most of the related party transactions are with the Government / state owned entities (such as IGC) and with the entities under common control by the Parent Company.

23 COMMITMENTS AND CONTINGENCIES

The Company is currently defending a legal claim filed by MEM, which seeks indemnification for penalties incurred due to delays in project delivery. While the Company does not admit liability, if the defence is unsuccessful, it may be required to pay an amount of OMR 19.5 million (31 December 2025: OMR 19.5 million).

The Parent Company has provided an undertaking to indemnify the Company against any amount that may become payable in relation to the MEM claim.

Based on legal advice received, management believes that the Company has strong grounds for defence and that it is probable the claim will be successfully contested.

As at reporting date, the Company had commitments pertaining to the capital projects under construction of OMR 57.1 million (31 December 2025: OMR 45.7 million).

24 FINANCIAL INSTRUMENTS

Details of significant policies and methods adopted including the criteria for recognition for the basis of measurement in respect of each class of financial assets and financial liabilities are disclosed in note 2 to the condensed interim financial statements.

25 SEGMENT INFORMATION

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("COD"). COD, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic decision maker. The Company's operating activities are disclosed in note 1 to these condensed interim financial information. The strategic business unit is managed as one segment. For the strategic business unit, COD reviews internal management reports on a monthly basis. Performance is measured based on the profit before income tax, as included in the internal management reports. COD considers the business of the Company as one operating segment and monitors accordingly. The requirements of IFRS 8: Operating Segments - paragraphs 31 to 32 relating to entity-wide disclosures have been covered under condensed interim statement of financial position, condensed interim statement of profit and loss and other comprehensive income and also in notes 1 to 4 to these condensed interim financial statements.

26 GEOPOLITICAL UNCERTAINITY

In late February 2026, geopolitical tensions increased in certain parts of the Middle East. Public communications from relevant government and regulatory authorities have continued to emphasise the resilience of the regional economies and the ongoing continuity of business operations.

Management has assessed the potential impact of these developments on the company's operations, including considerations relating to the safety and well-being of employees. Based on this assessment, management has concluded that these events have not had a significant impact on the Company as at the reporting date.

Management continues to monitor the situation and guidelines issued by the government and regulatory authorities.
